

CAR PARKING AT NEPEAN HOSPITAL

For patients and visitors

The Somerset Street car park will permanently close on 15 January 2019 for construction on the new hospital tower as part of Nepean Redevelopment Stage 1.

Temporary valet parking is in operation at the multi-storey car park to increase the parking capacity on campus during busy periods.

Additional disabled car spaces will be provided in convenient locations around the campus to offset the Somerset Street car park closure.

Until the new Barber Avenue multi-storey car park opens in mid-2019, please allow a little extra time for your journey to Nepean Hospital and, where possible, use public transport.

Thank you for your patience as we progress this important community redevelopment. Please pay close attention to traffic and pedestrian signage at all times.
