

NEPEAN HOSPITAL PUBLIC PARKING ACCESS

Construction has begun on campus as part of Stage 1 Nepean Redevelopment

To help make your next visit to Nepean Hospital a straight-forward experience, we have a few parking and access tips.

- 1 Add a bit of extra time to your journey to find a suitable parking space. Please drive carefully at all times and pay attention to construction signage.
- 2 The best public parking options are circled on the map below.
- 3 Consider using public transport. Kingswood train station is only five minutes away and there are several Westbus services that drop off at the hospital.
- 4 Our new multi-storey car park on the corner of Barber Ave and Parker St will open in mid-2019 and will provide more than 600 spaces.

Thanks for your patience and support as we progress this important community project.
