

## Construction Update — Thursday 27 February 2020

### Key activities for Stage 1 tower

Level 1 is now complete, with the construction team working hard to pour the final section of concrete for Level 2 this month.

Preparations are underway to pour the concrete for Level 3, where the Operating Suite will be located.

Work to remove the formwork on the Emergency Department level is underway, so the installation of services including hydraulic, electrical and mechanical can commence.

High voltage works from Kingswood Substation to the Stage 1 tower is almost complete with final trenching across Parker Street to commence soon.

The schematic design for Level 4 CSSD (Central Sterile Services Department) is now complete, with the project team beginning the detail design process.

### New childcare centre

The installation of hydraulic, electrical and mechanical services is now complete, while work to the external wall cladding and internal wall sheeting is ongoing.

The installation of window frames and glazing has commenced. Completion of the shade structure for the outside playground is set to commence this week.
